STRICTLY IN ADVANCE.

If you fear the worst, you're opening the door and inviting it in.

Clouds are referred to in a gloomy way, but without clouds there could be no rain and without rain no food.

Of course we are all thankful for various things, but the first is, that the war is ended, and our boys are soon to come home.

Rear up a child in the way he should go and when he becomes a man he will show you how you could have improved upon your methods.

A year ago a Nashville girl advertised at a cost of \$11.25 for a husband. She was successful and last Saturday he died leaving her \$19,000 or a net profit of \$18,989.75. We simply can't refrain from remarking again that it pays to advertise.

With the living expenses going outrageously high, it is difficult to make both ends meet. As a rule, and by compulsion, we make one end oatmeal and the other end fried potatoes, and in the middle we are sometimes lucky to have smoked sausage.

The man and woman who try to make their home the most interesting spot on earth for each other, and for their friends and those who are near and dear to them, have but occasional use for the club. It is to them, like the theatre, a pleasant place to enter now and then but not a spot to dwell in.

GO TO CHURCH SUNDAY.

How many of our reader will go to church next Sunday? How many people in our town will do

as they should, and attend church service? A church fills the mind with ideas which make for cleaner living and a greater peace of mind, body and soul. All need to go to church—some church. They are all good. All strive to reach the same place. It is needful to attend services of this kind because if men and women are to justify their existence they must feed their minds with the ideas that come from the Creator.

To fail to go to church one loses something which is vital and necessary to well being. So, try out the suggestion Sunday. Nothing will be lost, much gained. The call from the church is a call to humanity's better nature, a call well worth heeding.

WORLD'S LARGEST CLOCK.

Los Angeles, Cal.—The World's largest pedestal clock, erected in the new \$10,000,000 wholesale terminal, has been formally dedicated. On a cement base 6 by twelve feet the timepiece looks down from a height of thirty six feet. It automatically operates its own lighting system at sundown and shuts it off at daylight, winds and sets itself and is altogether its own handy man. The four huge dials can be seen from any parts of the twenty acres covered by the market place.

THE LETTER "E."

Some one has advance the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger, and in hell all the time. For some reason he overlooked the fortunes of the letter, so we will call his attention to the fact "e" is never in war and always in peace. It is the beginning of existence, the commencement of ease, and the end of trouble. Without it there would be no meat, no life, and no heaven. It is the center of honesty, makes love perfect, and without it there could be no editors, angels nor news.

Willie Dudney Has Narrow Escape From Death.

Willie Dudney, the 10 year old son of Mr. and Mrs. Will Dudney of Free State, narrowly escaped being killed in town Monday afternoon, when a mule that he was trying to mount ran away. He attempted to get upon the mule by using one the trace chains for a stirrup, his foot slipped and he fell backward, with his foot hanging to the chain, this caused the mule to scare and start running dragging the boy over a 100 yards of rough ground before his foot was loosened from the chain. He was carried to Dr. Fowler's office where he was given proper medical attention. The little fellow was painfully bruised and cut about face and back of the head, in fact, there were but few unhurt places on him, several front teeth were broken off. It seems that Providence interfered just in time save him. He was able to be carried home Wednesday.

Attention is called to the fact that amount of money received from War Savings Stamps does not leave the country, but comes back to the people. It used in paying the bills due for labor in this country, and for keeping open the channels of trade, thereby furnishing labor for the individual man and woman. Thus it is seen that proving the Government with a steady flow of cash enable the poorest man to do his duty and to show his patriotism in exactly the same way as people who can lend the Government great sums of money, or who can go across and fight.

Sergt. J. Bayless Anderson, arrived home Tuesday from Camp Lee, Va., where he was honorably discharged November 23. Mr. Anderson, who is a registered pharmacist, volunteered in July, 1917, and has rendered valuable service to his country during the past 16th months. He was stationed at Ft. Oglethorpe for several weeks from there he was sent to Camp Greenleaf, where he remained only a short time, and after being moved to several other camps from time to time, he at last ended his army career at Camp Lee. Bayless, like scores of other soldiers, no doubt, was sorely disappointed in not getting to go across, at the same proud to get back home.

The only sickness he had during the entire time, was the mumps, which kept him in for a brief period. He is hale and hearty and has the same old smile, the same kind of smile you try to smile, when you sing. "Pack up your troubles."

Boy Instantly Killed.

Clifton, the 14 year old son of Mr. and Mrs. C. R. Carver, who reside on East Fork, in the third civil district of this county, met instant death last Friday afternoon.

In company with another boy he had gone to the woods a short distance from his home to cut wood. He had cut away several saplings, that a large log had lodged against, and before he could get out of its way the log caught him, and he was crushed beneath its heavy weight. His neck, back and legs were broken causing instant death.

The boy that was with him, had a narrow escape from being caught by the log. He notified Mrs. Carver of her son's accident, Mr. Carver being away from home at the time. Help was secured at once and the dead boy was carried home.

Funeral service was held Saturday afternoon, conducted by Rev. Elisha Henry. The remains were interred in the Minchey Cemetery near the home.

Mr. and Mrs. Carver have the sympathy of the entire community, in this the saddest hour of their life. May their hearts be comforted, is the prayer of their many friends.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed." "Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., unless something is done, serious trouble may result." "Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's, the original and genuine. B 79
